	<hr/> \$ 88 82

Whole amount expended on roads and bridges by road agents.	\$832 12
--	----------

Amount of highway tax for 1893.	560 47
---------------------------------	--------

Amount of money paid out of treasury,	<hr/> \$271 65
---------------------------------------	----------------

We have examined the Treasurer's account and find it correctly kept. Vouchers were produced for all bills by the Selectmen when called for; as will be seen by the foregoing report that there is a balance in favor of the town of \$589.24 and we think that the raising of \$ 2.00 or \$ 3.00 will be sufficient for the running expenses for another year. By the accounts of Road Agents it will be seen that 1-4 of 1 per cent is not sufficient for repairs of highways and bridges, we therefore would recommend that the sum be increased to at least 3-8 of 1 per cent.

MOSES WHITCHER, { AUDITORS
F. P. NOYES, }

REPORT OF SCHOOL BOARD.

In making the annual statement of trust committed to us, as required by law, we earnestly hope that we have not brought any undue influence to bear upon the minds of the children in our schools, either by our own example or by those of our teachers which we have employed. In securing teachers it has been our aim to obtain the best for the positions they were to fill. If we have failed't was an accident, and not our intention. The result of the influence brought to bear upon the youthful minds has been continually before us, which prompted us to try and arouse such impulses as would point out to them the importance of improving every moment of their school-day life; to gain that degree of thorough education which so few acquire, mentally and morally, and can only be attained by punctuality, hard study, and well learned lessons in the schoolroom. What a deplorable fact it is that the fathers and mothers of the children growing up at the present date seem so little interested in the education of their children. Seemingly they do not think of it as one of the most important duties of their lives to watch the progress of their children in the schoolroom; see that they are there every day and promptly at the beginning of school both of the terms, and each morning. Too many seem to think that the town furnish the supplies and the teachers must do the rest. What a help it would be to the teachers if the parents would take the pains to visit their children in the schoolroom and thus encourage both teachers and pupils by a few words of commendation, and noticing that they are in their places and not off fishing or elsewhere.

"A word to the wise is sufficient."

While visiting the schools during their several sessions we have noticed some of the scholars that were trying to gain what knowledge they could in the short time they have to prepare for life's duties. What could please us more than to see the diligence that some exhibited, while others, we are sorry to say, seemed to care only for their schooldays to pass rapidly by with as little effort of theirs as possible, only what they could do to bother their teacher and not receive their deserved punishment. We are very

happy to say that this class are few but altogether too many, and we hope in the future to see a greater degree of interest in their studies and less of roguery.

We were much pleased on our visits to the schools with interest manifested by the teachers, and the progress of their pupils, especially spelling; quite a goodly number have written their spelling lessons the whole term and some the school year without a single error. May they all strive for the same perfection in the years to come.

C. E. NOYES, } School
C. W. CLARK, } Board.
L. B. CHANDLER.
